

TRISNA NADI SELAMET

FRESH GRADUATE INFORMATICS

Mercu buana University

BIO

My name is Trisna Nadi Selamat

I graduated from Mercu buana University majoring in informatics, IPK 3.37. I am always interested in learning about programming languages, especially now that I am deepening the javascript programming language and taking part in courses participants in the full stack javascript.

My final project completes the online shop information application starting from the process of the specified requirements and analysis, Starting from the Back End to the Front End.
